Stake and Prize Levels for Testing on Gaming Machines Found in Arcades and Pubs

Machine Category to Test	Monetary Stake to use when testing	Monetary Prize
C	20p/25p	£100
B3	25p	£500

Each machine carries a label that clearly indicates what category it falls into, category's C and B3 are the only machines we perform test on.

If a category D sticker is on a machine **DO NOT TEST** this. All ages can play machines with cat D label as these are a £5 maximum monetary prize, allowing all ages to play.

The label or sticker is often attached to the cabinet either at the front (low down) or sides of the machine. The sticker will usually be silver in colour with the category letter printed in black.

Testers should always play machines using the lowest stake available.
